AN IMPORTANT MESSAGE FOR BESTWAY CUSTOMERS:

We are pleased to inform you that Bestway successfully listed on the Hong Kong Stock Exchange (3358.HK) on November 16, 2017. This is an important milestone for our business, but more importantly, a crucial step for the continual growth and support of our customers.

We would like to sincerely thank you for 24 years of business, and our entire family is looking forward to the next era of Bestway.

OUR VISION

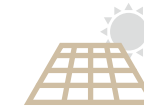

We create fun, lasting experiences to everyone in the world through the products and services we provide.

OUR MISSION

Happiness — Happy Consumers, Happy Employees, Happy World

Vertically Integrated

Sustainable

Customer Focused

Consumer Driven

Innovative

Fully Owned Production Facilities

MAKING BESTWAY® MEMORIES

Whether on the go or at home, Bestway's airbeds provide a refreshing night's sleep.

Here at Bestway, we have your customer's comfort in mind. With many options to choose from, there is a bed for every body's design. Not only are our beds easy to use, they provide you with an amazing night's sleep. And because many of the beds can be used both indoors as well as outdoors, they sell well throughout the year!

ALWAYZ AIR

BESTWAY[®] AIRBED TECH

Bestway's R&D department has invested time, money and dedication to pinpoint how to make a comfortable and durable airbed. We've worked hard to innovate with new technologies, new materials and provide better information for consumers.

Each year we're determined to add something new to our airbeds. And this year is no different. We're pleased to introduce the future of portable sleep solutions.

FORTECH™

Bestway's Fortech™ airbeds represent the future of inflatable bed technology. The innovative material provides high levels of strength, durability and comfort unparalleled in the industry.

STRONG MATERIAL

• STRETCH RESISTANT
Properties of the Fortech material make the airbeds more resistant to stretching caused by regular inflation and repeated use by consumers.

• PUNCTURE RESISTANT
Fortech material is 75% more puncture resistant and 150 times more impervious to scratches.

• INCREASED IGNITION RESISTANCE
Fortech material is 20% more fire retardant.

COMFORTABLE & CONVENIENT

• LIGHT WEIGHT MATERIAL
Fortech beds are up to 15% lighter in weight compared to PVC beds of the same size.

• SOFT MATERIAL
The Fortech material provides a soft and comfortable sleeping surface comparable to that of flocked PVC.

• TEMPERATURE REGULATION
The features of the Fortech material ensure that beds do not become too cold or too hot when temperatures fluctuate from hot to cold, as commonly found with PVC beds.

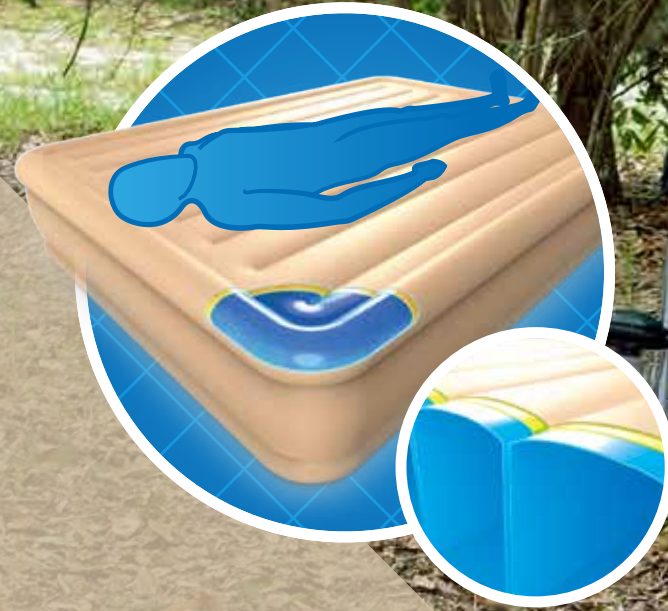

BUILT TO LAST

• OVER-INFLATION DAMAGE
Fortech beds are 70% more resistant to damage caused by over inflation.

• ROLLER TESTING
When tested with continuous rolling 300 lbs., Fortech beds lasted 35% longer than standard PVC beds.

• INTERNAL AIR LOSS
After extended use during simulation testing, Fortech airbeds retain 22% more internal air pressure than PVC beds.

TRITECH™ MATERIAL

Tritech™, a 3-ply reinforced material with a polyester mesh-core encased in two layers of laminated PVC that offers superior strength and durability.

This premium grade material can withstand the most extreme conditions including exposure to petroleum products and ultraviolet rays, plus it's stress-tested against the weight, strain, and movement of a good nights sleep.

ALWAYZAIRE™

T E C H N O L O G Y

Bestway is glad to introduce ALWAYZAIRE™ Technology, the latest engineering innovation and patented technology in portable sleep solutions. Rest easy knowing your airbed with ALWAYZAIRE Technology will be fully inflated throughout the night.

Internal PSI Gauge & Motor

Can detect drops in internal pressure and will automatically start the silent re-inflation pump to get the bed back to its intended firmness setting.

Quick & Easy Deflation

The auto deflation function will allow the bed to deflate without any user hassle. The deflation pump will automatically shut off once the internal PSI reaches 0.

ALWAYZAIRE™

The dual pump system includes a pump to inflate and deflate the bed, internal sensors to detect air pressure & a silent pump that turns on to maintain the preferred comfort setting.

ALWAYZAIRE™ — 3 COMFORT SETTINGS

— 1 Soft, 2 Medium and 3 Firm —

A dual pump system with a patented computerized PSI sensor allows consumers to automatically inflate the bed to 3 different preset PSI settings.

Bestway is committed to making innovative, quality products for all walks of life. That commitment means that our indoor airbeds are constructed with super soft flocked sleeping surfaces for a great night's rest. Plus, they are easy to inflate and deflate! Not only are they great for when guests are in town, they work wonderfully for the spare room, game room, or anywhere in the house you need extra sleeping space. And you can rest easy knowing you won't compromise on quality with a Bestway airbed.
