TOUGH GUARD™ FORTECH®

Bestway's Tough Guard™ / Fortech® air mattresses represent the future of inflatable bed technology. The ground-breaking material provides unparalleled strength, durability and comfort, making it a leading innovation in the industry.

TRITECH™

Bestway's ultra sturdy Tritech™ is a 3-ply reinforced material. With a polyester mesh core encased in two layers of laminated PVC, this material offers superior strength and durability. With Tritech, air mattresses keep their shape no matter how many times they're inflated or deflated. Plus, air mattresses are stress-tested against the typical weight, strain and movement of a good night's sleep to guarantee longevity.

INFLATION

BAG PUMP STORAGE BAG FUNCTIONS AS PUMP

Compress the air bag for hassle-free inflation — it takes just 5 - 7 compressions to fully inflate the air mattress. No pump required!
